

INCREASE THE VISIBILITY WITH DESIGN

Presentation and first impressions are key components to your successful business or the simple comfort of your own home. With so many choices to choose from whether your a designer, architect, or home-owner, Glaz-Tech Industries provides various design options and fabrication capabilities to ensure the realization of your vision. Heavy float glass is the choice at any level of presentation, décor, or entry system. In today's world, isn't it time to stand out above the rest?

Storefronts & Entrances

ISN'T IT TIME TO **STAND OUT . . .**
ABOVE THE REST?

IDEAL CHOICES FOR DESIGNERS & ARCHITECTS

RISING ABOVE STANDARDS

Heavy float glass is defined thickness of 1/4" (6mm) or greater. Aside from aesthetics, heavy float glass provides increased strength, easy maintenance and less deflection. Need special fabrication options? Not a problem. Glaz-Tech Industries provides an abundance amount of options powered by its state of the art equipment and technology.
