

**A CUSTOMIZED LOOK WITH NEW DIMENSIONS**

Flat glass has one very obvious feature, it is flat. You can add texture to your glass, but you have seen them all and they all look generic. With Glaz-Tech Industries' new *Infinite Dimensions*, you can add life to an otherwise dull partition, or glass entrance or shower door. Using simple stand-offs, Glaz-Tech will provide your basic project with that extra dimension, giving new life to an old system.

With Infinite Dimensions you can update the look of your existing shower doors by adding a unique design to the handle. You can also change out a panel and update it with our growing catalogue of specialty shapes, or even let us custom-design one for you.

**ADDING VALUE TO ARCHITECTURAL AND INTERIOR APPLICATIONS**

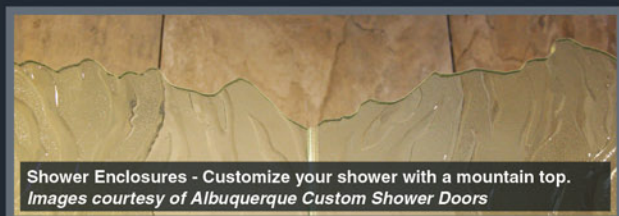

Infinite Dimensions does not necessarily mean that it can be used as a handle. Glaz-Tech's diverse product line extends to different creative and professional outlets such as architectural and interior applications. Glaz-Tech's design and fabrication capabilities helps you savor your creativity with precise craftsmanship. Let Infinite Dimensions transpire from your ideas and breathe life into new creative dimensions all while catching the attention of family and guests.
