**STANDARD CENTER GLAZE STOREFRONT & NARROW STILE ENTRANCES**

Narrow Stile Doors are designed for light to medium use in commercial and retail applications. Standard doors have exterior installation of glass or panels, with 2-1/8" width stiles and top rails, and the option of 4", 7-1/2" or 10" bottom rails for ADA compliance. The smooth design of Tubelite's door hardware features a convenient pull handle and push bar with lock location 36" above the finished floor. Stock doors and frames are anodized with clear or dark bronze finishes, and readily available for quick delivery. **TUBELITE**

**4500 SERIES STOREFRONT FRAMING**

4500 Series Storefront framing is ideal for a wide variety of interior or low-rise exterior applications. Profiles of 1-3/4" x 4-1/2" are designed for 1/4" to 3/8" exterior glazing, and can be assembled by screw spline or clip joinery. The roll-in gasket is easy to install at the interior and exterior of the glass. The 1-3/4" framing is compatible with Tubelite Narrow, Medium and Wide Stile Doors. **TUBELITE**

**14000 SERIES STOREFRONT**

For optimal strength and thermal performance, use Tubelite's 14000 Series Storefront, a flush glazed system for use on storefront and low-rise applications. Framing is available in standard thermally-improved or non-thermal members with 2" x 4-1/2" profiles, and a 1/2" bite for use with glass or panels up to 1" thick. Extra-heavy intermediate verticals are available for high performance against strong windloads. **TUBELITE**

**TUBELITE**®

Tubelite products also available for **low rise curtain wall systems, commercial operable windows, sun shades, medium stile doors, wide stile doors and thermal doors.** Tubelite fabricated systems are available in both anodized and painted colors.
