

SPECIALTY GLASS - CHINCHILLA

Glaz-Tech Industries provides a variety of unique textured glass. Glaz-Tech has the distinction of having textures that create more pleasant atmospheres for any commercial or residential application. These textures provide an important versatility in uses and applications. Whether it is used as a primary element or used to highlight other architectural features, designers and architects alike share the freedom to create translucent works of art for numerous applications.

Please call your local GTI facility for availability.
