All insulated units will be free of obstruction of vision due to moisture, due to the infiltration of dirt, dust, flaking, peeling or the formation of any film on the internal glass surfaces due to the intrusion of moisture (water vapor) in the dehydrated air space. Component glass guarantees for individual, reflective, pyrolytic or sputter coated glass lite(s) used in construction of Glaz-Tech IGU's are subject to specific glass manufacturers' warranties, which may or may not be covered within this limited warranty.
